

Hotel JAL City Nagoya Nishiki

Finally, we celebrate the grand opening of our first Hotel JAL City brand location in Nagoya on Friday, January 18, 2019.

Hotel JAL City Nagoya Nishiki opens in the Fushimi Area that links Nagoya Station with Sakae. Centrally located near Nayabashi Bridge at the intersection of Horikawa River and Hirokoji Street, the hotel is 5 minutes by car from Nagoya Station, a 7-minute walk from Fushimi Station, and immediately accessible from the Nishikibashi exit of Nagoya Expressway. The locale brims with potential for development as a business area that pushes the envelope even as it retains mainly the unchanging, calming landscape of Horikawa River.

Hotel JAL City Nagoya Nishiki Feature / Location

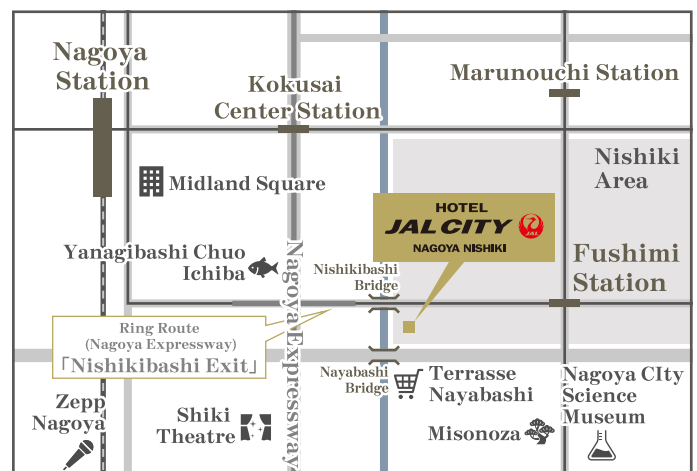

Only around a 15-minutes' walk as you stroll from Nagoya Station to Midland Square and Yanagibashi Chuo Ichiba or about 5 minutes by car, and the hotel is very conveniently located within walking distance from Fushimi Subway Station and Kokusai Center Station.

Our location offers easy and convenient access to Shikemichi, Nagoya Castle, Nagoya City Science Museum, Nagoya City Art Museum, and theaters - you can get to any location in both business and sightseeing areas.

For Our One Harmony Members Point Campaign for Limited Time Only!
At check-in, please show us your taxi receipts.

For a limited time, we will award 400 One Harmony (OHM) bonus points one time at when checking in for the appropriate amount of taxi fare to the hotel from Nagoya Station Sakura-dori Exit.

For more information, please visit the hotel official website.

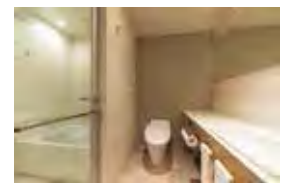

Hotel JAL City Nagoya Nishiki Feature 2 Rooms

Great attention was paid to the time that our guests will spend relaxing in our rooms. To create a space where time flows more slowly, we've integrated the light glistening from Horikawa River into our guest rooms.

Each with comfortable beds, a high-speed communication Internet environment, bathtubs and toilets in separate rooms, rain showers, and Japanese-style bathtubs for ease of use by our guests staying with children. Our sincerest wish is to ensure you enjoy a memorable stay in Nagoya beyond time and space.

Hotel JAL City Nagoya Nishiki Feature 3 Cafe Canal 1610

Our restaurant is named for the year Ieyasu Tokugawa is believed to have drilled Horikawa River when building Nagoya Castle. The Horikawa River flowing in front of the hotel has done so from the past to the present and is an important canal to continue using in the future.

You'll enjoy a breakfast buffet with healthy, body-friendly selections, as well as a marriage of regional dishes arranged by our skilled chefs with a variety of beverages.
